

SEMANA ID ROTA VICENTINA

October 14, 2020

«A week to visit, think and celebrate the Southwest». It is under this motto that Rota Vicentina presents the [Semana ID Rota Vicentina](#).

In the Spring of 2021, between the 21st and the 27th of March, Southwest Portugal will experience the first public event promoted by the Rota Vicentina Association, which extends over 7 days, from Santiago do Cacém to Lagos.

The program will feature touristic opportunities for a unique journey along the coast and mountains, as well as a component which invites reflection on sustainability with itinerant, face-to-face and online talks.

Rota Vicentina wants to continue its journey and, in a spirit of communion and sharing of the territory, to invite those who were born here and those who love this land to co-create and participate in this event.

The entire local community and project partners are invited to collaborate in the creation of the Semana ID Rota Vicentina, for it to be for everyone, from everyone.

After the expansion of its Walking Trails network and the launch of a network of Cycling Trails, Rota Vicentina now begins a journey beyond landscapes and nature.

Hand in hand with the community, with the sustainable promotion of heritage through tourism at its core, [ID Rota Vicentina](#) was born: a project that proposes a journey through the local culture of Southwest Portugal.

Rota Vicentina is a non-profit association, responsible for managing the Rota Vicentina and ID project, supported by a network of 200 companies from different sectors as well as a team of local agents, committed not only to providing high quality services but also to the sustainability of the region.
